Professional Summary

Full Stack Java Developer with 1.5+ years of experience delivering secure, high-performance fintech and enterprise platforms. Skilled in Spring Boot, Angular, and Oracle with strong expertise in microservices, API design, and performance optimization. Passionate about building scalable architectures and user-centric applications that drive measurable business outcomes.

Professional Experience

Software Developer | Image InfoSystems Pvt. Ltd. | Apr 2024 – Present

- Developed and optimized **Spring Boot microservices**, improving workflow performance by **20%** and transaction throughput by **30%**.
- Implemented **Spring Security**, JWT, and secure API integrations (REST/SOAP).
- Worked on **API Gateway (Spring Cloud)** for centralized routing, filtering, and request handling.
- Containerized services using **Docker** and supported deployments on **Kubernetes** environments.
- Improved code quality using **SonarLint**, debugging tools, and best clean-code practices.
- Collaborated with DevOps to support **CI/CD pipelines**, reducing release cycle time by **25%**.
- Participated in Agile sprints, code reviews, and cross-team collaboration for high-quality deliveries.

Key Projects & Achievements

HDFC Bank – Cheque Truncation System (CTS) | *Software Developer* | Jun 2024 – Jan 2025

- Expanded secure **Spring Boot + Hibernate** backend modules for cheque validation, improving processing speed by **20%**.
- Integrated multiple banking systems using unified **REST/SOAP API** services, increasing system reliability
- Optimized Oracle queries for high-volume transactions, reducing load times by **30%**.
- Strengthened error handling and logging for proactive system monitoring.

Qatar National Bank (QNB) | *Software Developer* | Jan 2025 – Present

- Enhanced Spring Boot + Spring Security-based REST/SOAP services for secure interbank transactions.
- Built cheque scanning and validation modules with robust digital storage integration.
- Collaborated with Angular teams to deliver responsive, customer-facing banking modules
- Supported CI/CD pipeline enhancements and production debugging efforts along with DevOps teams, improving release stability.

Education

- **Bachelor of Engineering (Information Technology)** – Savitribai Phule Pune University, Pune (2019–2023) | **CGPA: 8.32/10**
- **12th (HSC)** – Latur | 2017–2019
- **10th (SSC)** – Latur | 2015–2017 | **Score: 90.6%**

Technical Skills

- **Languages:** Java, JavaScript, HTML, CSS
- **Frameworks:** Spring Boot, Spring Security, Spring Cloud Gateway, Hibernate, Angular
- **Databases:** Oracle, MySQL, MongoDB
- **APIs & Architecture:** RESTful APIs, SOAP Services, Microservices
- **DevOps & Tools:** Docker, Kubernetes, Spring Cloud Gateway, SonarLint, SonarQube, Swagger/OpenAPI, Git, Maven, CI/CD pipelines (Jenkins exposure), Postman
- **Practices:** Agile, Clean Code, Debugging
- **Servers:** JBoss, WebLogic

Certifications & Leadership Activities

- Java Full Stack Development Certification – The Kiran Academy
- Core Java Skill Assessment (YoFoftTech) – **Score: 100/100**
- Active problem solver on LeetCode and coding hackathons
- Contributor to company-wide technical initiatives and peer mentoring
